September 23rd a group of WTT Misiones brothers gathered in the City of Iguazu to celebrate the Equinox. We had a little group living, meditations, fire ritual, and a walk to the waterfalls. There we also meditated in the circle (ring) of the amphitheater. Happy to join together again. Happy equinox!

We came together in the west of Hamburg to celebrate the equinox of Libra together. In addition to meditations in a 3-hour rhythm, we carried out triangular work in small groups as well as experimental constellations. On Sunday, contemporary witnesses reported on their encounter with Master EK on the occasion of his visit to Hamburg 40 years ago. We experienced deep, intense and sometimes challenging energies.
