Auditing Report 2023

As the auditor of The World Teacher Trust-Global, I have examined the annual Account, closed on 31st December 2023 with a balance sheet total of CHF 106,969.73, for the period from 1st January 2023 to 31st December 2023.

I assert that

- the cash reserve and the post deposit are reported and that they are in accordance with the balance sheet.
- the spot-checked documents are on hand in an orderly form and correspond to the entries.
- the balance and the profit and loss statement correspond with the Accounts done in due form.

In my opinion, the accounting records and the financial statements comply with the legal and statutory regulations.

On the basis of the results of my audit I recommend the acceptance of the Annual Accounts and to give discharge to the executive Board and the Cashier and thank them for their work done in the past year.
